## Plot:

[Siren Menage Everlasting: Erotic BDSM Menage a Trois Romance, M/F/M, public exhibition, voyeurism, whipping, flogging, sex toys] Emma didn't even know something was missing until she found it. Terrified by her first taste of BDSM, Emma begins to learn the true meaning of submission when Jace and Logan intervene. Jace has finally reached a point in his life where he's looking to build a future with that special someone. Emma, with her independent streak and natural submission, seems like the perfect woman for Jace. But Logan seems deeply affected by her, too. Logan is on forced medical leave from the Navy SEALs and he's not happy about it. That is, until he and Jace rescue a frightened little sub from her obnoxious Dom. Logan can't seem to walk away, even though it would be the best thing for Emma and Jace. But when they discover that her ex-boyfriend is actually a serial stalker, can they keep Emma safe while they teach her about her own needs? \*\* A Siren Erotic Romance
