Synopsis:

Research shows that by the time many children are thirteen years old they feel they know everything there is to know about the Bible and God, and feel no further need of attending church. Could this be because we have underestimated their spiritual potential, and been content to feed them a repetitive spiritual diet of basic Bible stories over and over again? Just how many ways can we repackage Noah's Ark anyway? It's time the collective body of Christ re-evaluate children's ministries and redefine what valid, disciple-making, equipping children's ministry really is.
