## Review quote

"Anybody who has ever thought critically about secularism should pick up *Secularism on the Edge*, a brutally frank and illuminating collection of essays by erudite writers who dissect a complex subject and still manage to be the

life of the party, writing with humor, cheekiness and pluck. This isn't your talking head's monologue on secularism. It's a Feminine Mystique for suffragettes in secularism. It's a sassy read!" - Asra Nomani, author of *Standing Alone: An American Woman's Struggle for the Soul of Islam* (2006), and visiting scholar in the practice of journalism at Georgetown University, USA "The very word 'secularism' is an invitation to argument. This fascinating collection of essays embodies a wide range contemporary arguments within and outside secularism - about its contested meanings, its disputed values, and its multiple contradictory directions worldwide. It will be fascinating to anyone who cares about religion and public life and keeps an open mind about how these should interact." - Noah Feldman, Felix Frankfurter Professor of Law, Harvard University, USA, and author of *Divided by God* (2006)
